

# Folded Coaster

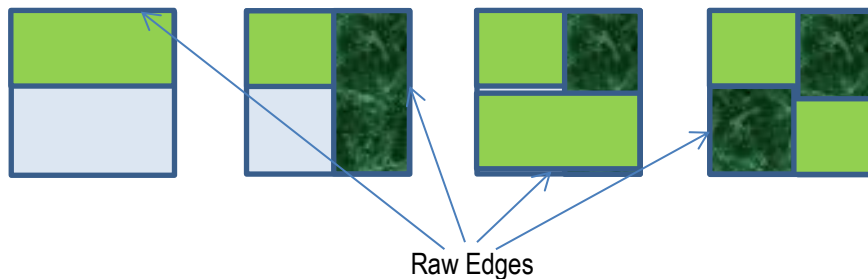

## Materials

5 4" squares of cotton Fabric

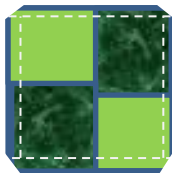

1 4" square of wadding (curtain interlining is good or any patchwork lining or insulbright if you want it to be heat resistant)

## Method

- 1 Fold 4 of the cotton squares in half, wrong side facing
- 2 Layer the fabric in the following order
  - a. Wadding
  - b. The unfolded cotton square, right side up
  - c. The 4 folder square in the following pattern, folded edges to the centre, raw edges to the outside, when you layer in the 4<sup>th</sup> folded square you will need to tuck one side of it under the first one.

- 3 Stitches around the 4 outside edges, about a quarter of an inch in either by machine or by hand and trim the corners

- 4 You now need to turn the coaster through. To do this bring the 4 folded edges over to cover the wadding pushing out the corner
- 5 Press
